Ashkona, Airport, Dhaka, Bangladesh | anturdebnath.dev@gmail.com | +8801770125058

## Profile

---

Enthusiastic Full Stack Developer with a strong foundation in HTML, CSS, JavaScript, React.js and Laravel. Passionate about transforming ideas into visually appealing, responsive, and high-performing web applications. Skilled in building both frontend interfaces and backend APIs that deliver seamless user experiences. Known for a growth mindset, meticulous attention to detail, and a commitment to writing clean, maintainable code. Always eager to learn, collaborate, and contribute to projects that make technology more intuitive and enjoyable.

## Professional Experience

---

### FullStack Developer at MystrixIT, Dhaka (Mar 2025— Sep 2025):

- Assisted in developing responsive and dynamic web interfaces using React.js, Bootstrap, and Tailwind CSS, enhancing site accessibility and mobile responsiveness.
- Converted static UI designs into interactive and reusable components.
- Contributed to backend development using PHP (Laravel) and MySQL, ensuring smooth data flow and API integration.
- Participated in debugging, refactoring, and feature testing to improve overall application performance and stability.
- Collaborated closely with UX designers to maintain a consistent visual design, brand identity, and user-friendly experience across all platforms.

## Technical Skills

---

HTML, CSS, Tailwind CSS, Bootstrap, Framer-Motion, JavaScript, React.js, Laravel, MySQL, C, C++, Java

## Internships

---

### FullStack Developer at MystrixIT, Dhaka (Mar 2025— Sep 2025) :

- Developed and maintained responsive, user-friendly web interfaces using React.js, Tailwind CSS, and JavaScript (ES6). Collaborated with backend developers to implement dynamic data rendering and full CRUD functionality.
- Enhanced application performance by optimizing React components and implementing lazy loading, improving load time. Participated in UI/UX design discussions to refine layouts and maintain brand consistency across all pages.
- Gained hands-on experience in debugging, testing, and deploying frontend modules in a production-like environment.

## Projects

---

### Project 1: Praasad Group ERP System

Role: **Full Stack Developer (Frontend-focused)**

Technologies: Laravel, React.js, RESTful APIs, MySQL, Tailwind CSS, Framer Motion

Description:

Developed and maintained a comprehensive ERP (Enterprise Resource Planning) system for Praasad Group, designed to streamline and automate core business processes across departments such as inventory, sales, customer management, and accounting.

### Key Contributions:

- Built responsive, modern, and interactive UI components using React.js and Tailwind CSS.
- Integrated RESTful APIs with dynamic CRUD operations across multiple modules (users, warehouses, products, expenses, etc.).
- Implemented Framer Motion animations for an intuitive and engaging user experience.
- Collaborated with the backend team to design and optimize Laravel API endpoints for performance and reliability.
- Ensured consistent UI/UX patterns, reusable components, and maintainable code architecture throughout the project.

## Project 2: Inventory Management System

Role: **Full Stack Developer (Frontend-focused)**

Technologies: React.js, Laravel, MySQL, Axios, Tailwind CSS, Framer Motion

Description:

Developed an inventory management system to efficiently track products, suppliers, stock levels, and warehouse operations.

### Key Contributions:

- Implemented CRUD operations for products, categories, and suppliers with search and pagination.
- Designed a clean and interactive React frontend with responsive UI and animations.
- Managed image upload and file handling with Laravel API integration.
- Built automated calculations for total, paid, and due amounts.
- Focused on modular, maintainable code with reusable components and clear state management

## Education

---

- Program : Bachelor of Science in Computer Science and Engineering
- Institute : Northern University Bangladesh
- Passing Year : Enrolled
